FlexiPath™ Adaptive Path Planning

The Scuba X1 Pro's FlexiPath™ technology and intelligent mapping system guarantee advanced cleaning patterns for pool floors, elevated platforms, and curved walls, ensuring efficient and comprehensive maintenance.

OmniSense+™ Ultrasonic Sensors for 360° Mapping & Obstacle Avoidance

OmniSense+™ delivers a 360° map of your pool, including floor, walls, elevated platform, and even hard-to-reach areas. Advanced ultrasonic sensors allow it to adapt to complex pool layouts, extend detection range, and ensure timely obstacle evasion.

Auto Mode Adaptive Cleaning

Clean smarter, not harder: the Scuba X1 Pro's Auto Mode adapts to your pool's cleanliness, adjusting power output for optimal cleaning, tailored to your pool's needs, and provides personalized care and peak efficiency.

Replaceable MicroMesh™ Ultra-fine Filter Captures Fine Debris

This Replaceable MicroMesh™ Ultra-fine Filter ensures all impurities, including tiny sand and dust particles, are effectively captured in the dust chamber, preventing clogs and maintaining long-lasting cleaning efficiency.
